Concept Searching and RBA Consulting Form Strategic Partnership

*Premier Microsoft Technology Solution Provider & Knowledge Management Software Company
Partner to Uniquely Solve Content Management Challenges*

McLean, Virginia and Wayzata, MN – March 11 – Concept Searching, developers of semantic metadata generation, compound term processing, automated classification, and taxonomy management software and RBA Consulting, a Microsoft focused technology leader in consulting and services have formed a partnership to jointly market Concept Searching's software to deliver content management solutions leveraging RBA Consulting's deep technology expertise and business consulting services.

Concept Searching's concept**Classifier** for SharePoint is the only statistical based classification and taxonomy solution to use concept extraction and compound term processing to achieve the optimal approach to manage unstructured content. Features including automatic compound term and semantic metadata generation, automated classification and taxonomy tools developed for the Subject Matter Expert result in a new approach proven to solve traditional knowledge management challenges. Highly flexible the technologies are fully integrated into Microsoft SharePoint and solve a wide range of challenges in Enterprise Content Management, Records Management, Compliance, and Litigation Support.

"We are delighted to announce this partnership with RBA Consulting. Their competency and depth in developing portals and collaboration solutions across a wide range of industries compliments our software and enables us to jointly offer compelling content management solutions that deliver business results," said Martin Garland, President Concept Searching. "RBA Consulting delivers a unique combination of technical and consulting expertise resulting in the development and implementation of technology solutions that solve client's business challenges."

"Enterprise Content Management is a daunting task, and the explosion of digital content across multiple platforms, file shares and portals has made the task that much more difficult. We are extremely excited about the chance to partner with Concept Searching and deliver a holistic set of solutions to content management providing tremendous value to our customers," RBA General Manager, Will Clevenger. "This partnership is absolutely key and Concept Searching provides the technology and acumen in the content management space that differentiates RBA in a crowded marketplace."
